

Highlights...

Machinery (including controllers, moveable tables, and other machine components) must be placed 2-feet in from any aisle (all booths). Machinery facing away from the aisle showing only non-operating back panels and draped with a low side railing can be 1-foot in from the aisle (corners, peninsulas and island booths only). Machinery in an in-line booth must be 2-feet from the aisle but can be placed next to the booth divider.

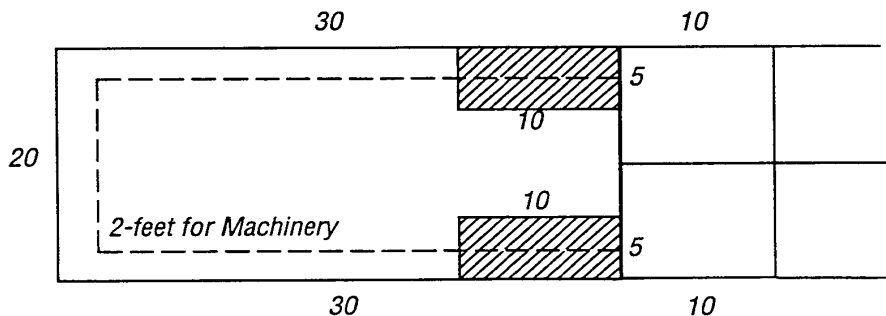

Exhibit materials and signage are limited to 20-feet in height*. Machinery has no height limit.

Display materials placed within 5' of the aisle may not exceed 4' in height when within 10-feet from any neighbor (all booths, except islands).

In-Line Booths (Overhead View)

Peninsula Booth

 = No Display Materials over 4-feet in height

* Subject to ceiling height limitations.
