

Greenville Convention Center Utilities Ordering Information

As part of an overall strategy to provide digital media resources to customers and reduce the facility's carbon footprint, the Greenville Convention Center has migrated to paperless event service ordering. Online ordering provides greater efficiency in service delivery with order data now stored in a central data base.

Supporting sustainable Green Events is an ongoing effort, and we expect to divert tons of paper from the waste stream here at the Greenville Convention Center with our online ordering service.

If you happen to experience any technical issues when ordering your services, please contact the convention center at (864) 233-2562 or via email at utilities@meetgcc.com.

Please note that ordering early helps ensure your specific service requirements are met and your cost will be lower. To obtain the lower rates, be sure to place your **PLUMBING** and **ELECTRICAL** orders by **September 30, 2025**. Early orders for telecommunications/internet modems are encouraged as well to ensure the availability of service. Orders for the respective services after those dates will be charged at a higher on-site/floor rate.

Please click on <https://meetgcc.com/exhibitors/> to begin your ordering process.

Thank you for your cooperation.
